

BUSINESS CHECK CARD APPLICATION

DOES YOUR BUSINESS NEED A CONVENIENT CHECK CARD?

Our Business Check Card offers ATM access, and debit card service, all in one convenient card! You and your employees can carry a convenient card instead of cash or a bulky checkbook. Use it to withdraw needed cash for business expenses or use to make purchases. You have the convenience of using your card to replace the need for using paper checks when making purchases at point-of-sale locations which accept Visa® debit cards. The purchase amount, plus any cash back you request, is automatically deducted from your Business Share Draft (Checking) account.

NONPROFIT/BUSINESS PROFILE

Glossary of Terms

Automated Teller Machine (ATM)

This machine can perform some of the transactions a teller can make. They are commonly found at credit unions and banks, but are sometimes placed in other locations, such as grocery stores, restaurants and malls.

Point-of-Sale Terminal (POS)

POS is a system that lets you pay for purchases with your Business Check Card. When you use the POS system, the money you spend for purchases, plus any cash back, is automatically deducted from your Business Share Draft account. POS terminals are commonly found at gas stations “at the pump”, check-out lines of grocery stores, and at some retail establishments. Use your Business Check Card as a debit card everywhere Visa debit cards are accepted. You slide your card through the POS terminal and simply follow the instructions displayed on the terminal just like an ATM.

Personal Identification Number (PIN)

Your PIN is the key to using your Business Check Card, without it, the Card is useless. It is your four-digit secret password, that you choose when you receive your card. You enter your PIN on the ATM or POS terminal to authorize the transaction. Your PIN is like your signature on a check.

VSECU USE ONLY
